Do you have a passion for make-up and a creative instinct? Would you like to work in the fashion industry? Perhaps make-up artistry is a good career choice for you.

A creative short course where students learn the fundamental skills of design and apply make-up, giving them the skills to work as a retail cosmetic assistant and abilities to freelance as a junior make-up artist.

In an Australian first, Clip Joint Education has joined forces with world-renowned Sassoon Academy, to deliver the most state-of-the-art training for students. Clip Joint Education reflects a real world student salon teaching, salon orientated retail skills. The Nuts & Bolts program is a successful international business training program designed to help students capitalise on their technical skills learnt at school, to prepare them for the work of business, making them a superior graduate and hence more hireable.

**The Nuts & Bolts promise:** have more self-confidence, gain a competitive advantage in the job market; make more money faster; get on a faster track to management and salon ownership.

A few of the business building skills that students will learn: the importance of creating and understanding detailed client profile reports; how important it is to work a part of a team and how to work with fellow teammates to create a successful and lasting business.

**The Nuts & Bolts program outline:**

**Embracing Change:** learning the necessity to embrace change in the school environment and eventually the workplace. How to overcome fear and use change to your advantage. How to capitalise on these new tools and fuel your personal and business growth.

**The Complete Retail Experience:** How successful retail sales are an essential component in providing legendary customer service; Increase retention and deliver consistent customer service wow.

**How to Build Your Business:** How to build your business and what tools you need to do it. How to get clients, keep them, up-service them and build your business using referrals from these clients;

**Customer WOW:** learn how to identify the clients' needs and create an exceptional customer experience. You will learn how to think like a business person, how to develop business planning strategies and how to work smarter, not harder.
